December 2000

Placing Clients First in Environment, Health and Safety

As 2000 draws to a close, all of us at Resource Environmental Associates would like to take the opportunity to thank all of our clients and business partners for making 2000 a banner year for our firm. It's truly rewarding to be in a field where we have the opportunity to help protect health, safety, and the environment on a day to day basis, and it's an honour to be able to work with so many great people and organizations.

For the coming year, clients can look forward to REA expanding its' scope of services and capabilities. We've recently added an asbestos microscopy lab to provide faster and more cost effective PLM and PCM fiber analysis (and we have enrolled in the AIHA Laboratory Accreditation Program); we've also enhanced our strengths in machine safeguarding with additional personnel and design workstations; and new courses have been created for the 2001 calendar (Environmental Protection in Ontario, Workplace Chemical Safety, and Health & Safety Orientation).

We are particularly excited about our Weekly 1/2 Day Health & Safety Orientation Course, which includes WHMIS, and is designed to provide a convenient way for employers to get new employees off on a safe start. Finally, I'd like to thank all of our people at REA for their excellent and dedicated work. It's a privilege to work with such an exceptional group of professionals.

Best wishes for the holidays and the New Year.

John H. Murphy, President

REA wishes you, your family, and your co-workers a happy and safe holiday season. See you in 2001.

Come See Us!

Meet REA at the PM EXPO / BOMEX 2000 from November 29th to December 1st, 2000 at the Metro Convention Centre, South Building - Booths 1508 & 1510. Contact Vincent Germanese for free passes for your department or company.

ANNOUNCEMENT: Staff Appointments

REA would like to introduce the latest additions to our growing family of consultants: Kishore Patel and Brian Petersen.

Kishore Patel comes to us from the corporation previously known as Ontario Hydro. Kishore has a Bachelor of Science and a Master of Science in Geology, and his career experience includes over a decade of work at the Ontario Ministry of Labour Occupational Health Lab. He will be focusing on occupational hygiene services, and will provide PLM and PCM analysis in our microscopy laboratory.

Brian Petersen has over 13 years experience in mechanical design focusing on ventilation, industrial machinery, and factory fixtures and structures. Most recently he worked with a large Canadian fabricator of industrial equipment. He holds a Bachelor's degree in Mechanical and Industrial Engineering and is a registered Professional Engineer in the Province of Ontario. He will be specializing in machine & process safeguarding analysis, guarding design & implementation, and pre-start health & safety reviews.

Upcoming Courses

Joint Health and Safety Committee Basic Certification:

December 5 & 6 - London
December 12 & 13 - Toronto
January 10 & 11, 2001 - Toronto
January 16 & 17, 2001 - Ottawa
January 17 & 18, 2001 - London
January 30 & 31, 2001 - Kingston

Contractor Project Safety Management:

Nov.30 & Dec.1 - Toronto
January 15 & 16, 2001 - London
January 29 & 30, 2001 - Toronto

January 8, 2001 - Toronto

Machine and Process Safeguarding:

January 9, 2001 - Toronto

Health and Safety Orientation and WHMIS:

January 12, 2001 - Toronto

Would You Rather We E-Mail You?

Frankly, it would be our preference! If you'd like us to e-mail EHS Headlines instead of faxing it, just send your request (via e-mail) to: consultants@rea4ehs.com. Please be sure to tell us your real name and fax number so that we can take you off the fax distribution list.
